Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ Time Extension Request

Specific years requested 2001, 2002

Is this a second request? ☒ No ☐ Yes Specific years requested
(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).

Specific ADR requested %, for the years

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

The Tehama County Sanitary Landfill Management Agency (TCSLMA) planned to meet the 50% goal in 2000. However, the planned Material Recovery Facility (MRF) construction has been delayed due to property acquisition and CEQA issues. The MRF also would include an adjoining compost facility for separated yard waste. CEQA report completion is anticipated in September 2001. Continued on attached page

2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.

The TCSLMA has asked for a two year extension in order to gain approval for the CEQA report, and to complete construction of the MRF and compost facility. Prior to commissioning, staff will attempt to generate public awareness in order to better utilize the facility. The entire construction/awareness process may run significantly into 2002, such that a 50% diversion may not be attainable.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

Current diversion is estimated at 46%. Solid Waste programs in the County successfully source separate many recyclable materials at residential pick up, or at remote transfer stations. Additionally, some self-haul loads arriving at the landfill contain separable items such as white goods or wood waste that are routinely diverted. A significant amount of tonnage however, cannot be separated without a MRF.

4. Provide any additional relevant information that supports the request.

CEQA report to support MRF/Compost facility to be submitted in September 2001.

III-A - Time Extension

1. continued

Pending review and acceptance by the CIWMB, a MRF and compost facility could be in operation by mid-2002.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.
